OPEN LETTER TO GOV. BAILEY

Demo Nomination of Judge A.P. Steel Is Asked

Hempstead County Committee Favors Him as Chancellor

Endorsed as Candidate to Fill Office of Late Judge Bacon

REASONS ARE GIVEN

No Official Action Is Taken Regarding U. S. Senate Seat

The Hempstead County Democratic Central Committee, meeting at Hope city hall Friday afternoon, passed a resolution requesting the State Democratic Committee to nominate Judge A. P. Steel of Ashdown as the Democratic nominee for chancellor of this district. The resolution was unanimously passed.

The office of chancellor judge was left vacant by the death several months ago of Judge Pratt P. Bacon of Texarkana. Governor Carl E. Bailey appointed Judge Steel, former circuit judge of the ninth district, to serve in Judge Bacon's place until the office could be filled by an election.

The resolution said that it was impractical to hold a special primary to nominate a candidate to run in the general election because the Democratic party does not have sufficient funds.

Another reason, the resolution pointed out, was that the expense of a candidate or candidates would be excessive and unreasonable, and, third, in view of the probability of a general election being called in September there would not be sufficient time to hold a special primary.

While there was no official action taken by the committee on the nomination of Governor Carl E. Bailey to fill the United States senate seat left vacant by the death of Joseph T. Robinson, it was the consensus of opinion that the Hempstead committee favored the nomination of Governor Bailey by the State Democratic Committee.

The county committee also passed a resolution in respect to the late J. B. Beckworth, committeeman from Shover Springs.

Gordon Beckworth, a son of the late Mr. Beckworth, was elected to fill the unexpired term of his father.

Judge Steele's Endorsement

Whereas, a general election will be held during the year, 1937, to fill the vacancy in the office of Chancellor for the Sixth Chancery District of Arkansas caused by the death of Honorable Pratt P. Bacon, Chancellor of said District; and

Whereas, Judge A. P. Steel, a staunch Democrat and an eminent jurist is holding said office by virtue of appointment by the Governor of State of Arkansas; and

Whereas, it is impractical to hold a special primary to nominate a candidate to run in the general election for said office for the reason that (1) the party does not have sufficient funds to defray the expenses of such election; (2) the expense if borne by the candidate, would be excessive and unreasonable; (3) in view of the probability of a general election being called by September, 1937, there would not be sufficient time after holding a special primary to contest said election should any candidate desire to file a contest; (4) The State Committee is composed of outstanding representative Democrats who are in touch with the Democratic voters of their respective Districts and have full authority to nominate a Democratic candidate to run in the general election for said office;

Now, Therefore, Be It Resolved, by the Hempstead County Democratic Central Committee, that this Committee go on record as favoring the State Committee nominating a candidate.

Be It Further Resolved, That this Committee unqualifiedly endorses Judge A. P. Steel for said nomination and recommends him to the State Democratic Central Committee for the nominee for said office.

Resolution of Respect
Whereas, the Grim Reaper has removed J. B. Beckworth, our friend and fellow-committeeman, from the tumultuous land of the living, to the silent land of the dead; and

Whereas, he was successively a member of this committee for the past eight years; was a loyal, capable, conscientious and courageous Democrat; and a tireless worker for the interest of his party and his fellowman;

Therefore, Be It Resolved, By the

On the following day, business facts for the homemaker, government and taxation, community interests, rural electrification, and home building, will be the subjects of the group discussions.

500 Gasoline Tax Evaders Caught

Memphis Motorists Served With Bills for Back Taxes

MEMPHIS, Tenn.—More than 500 motorists in Memphis, have been served by the Tennessee department of finance and taxation with bills for taxes not paid on gasoline purchased from tax evaders.

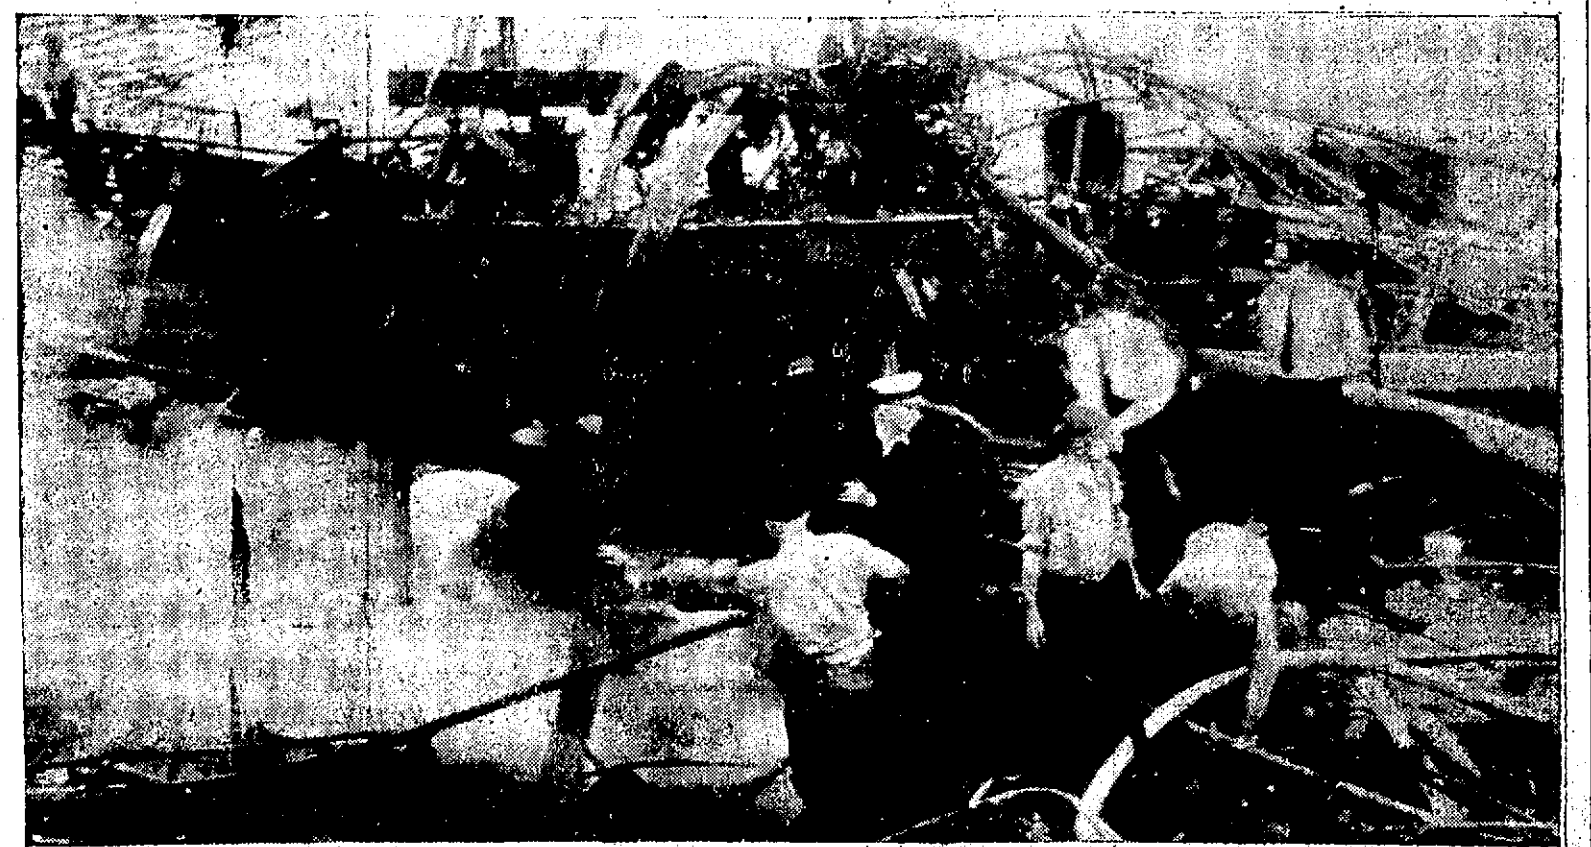

For some time, the department found, a gasoline dealer had been operating in the delivering gasoline tax-free to Memphis motorists in five and ten gallon lots. The Tennessee state tax is 7c per gallon, highest in the country and almost twice as high as the average state tax throughout the country. On a ten-gallon purchase, a motorist would save 70c.

Following extensive gasoline tax frauds in this state, Tennessee amended its law to extend the tax liability to include "every person" involved in the evasion of gasoline taxes. The department of finance and taxation obtained a list of customers served by the Arkansas gasoline bootlegger and is now pressing the motorists for the evaded taxes, said to aggregate more than \$9,000.

Kingston Burdelle, principal of the Heatherly High School, sat in his office considering vacation plans. The school year was near its close, and the long summer months lay ahead. A tall, sedate-looking stranger appeared at his office.

"Are you the principal of the school?" he asked.

"Yes . . . I am Professor Burdelle."

"I am very glad to meet you, Prof. Burdelle. . . My name is Francis Ferrando."

"You are a stranger in Heatherly, are you not?"

"Yes," said the newcomer. "This is my first visit here. I am a conductor of travel tours for professional people."

"That is quite a coincidence," said Prof. Burdelle. "I was just considering how I should spend my long vacation. . . Do you represent a tourist agency?"

Ferrando smiled. "Oh, no, I work independently. I organize and conduct tours to the scenic spots of America, taking only selected groups of congenial professional people."

"That sounds interesting," said Prof. Burdelle. "I plan to organize a group of teachers here in Heatherly. We will charter a sight-seeing bus of the most modern type, and our tour will include the Yellowstone National Park, the Grand Canyon and other outstanding points of interest."

"What is the duration of your tour?"

Warning Against Neutrality Law

Senator Discusses U. S. Policy Toward Japan and China

WASHINGTON.—(P)—Senator Lewis, democrat of Illinois, said Saturday that the United States could be at war with China or Japan, or both, "within an hour" if it complied with demands for immediate enforcement of the neutrality law.

Discussing the administration's policy with regard to the Asiatic crisis, Lewis told the senate:

"Those who are demanding that the United States enforce its neutrality law at once, fail to see the moment we announce either one of the nations as an aggressor and declare both as being at war."

"Our ships of trade delivering American goods in the Orient would at once be seized by either China or Japan, or both, as bringing supplies to the enemy."

Some concern was felt for the safety of two Americans in the Tungechow region. They are Harry S. Martin of Boston and James A. Hunter of Peoria, Ill.

Petition Requests Governor to State His Future Plans

Says People Want to Know If He Intends to Resign Office

787 SIGNATURES HERE

Petition Circulated by John P. Vesey, Phil Dulin, Others

Circulation of a petition bearing 787 signatures of Hempstead county residents asking Governor Carl E. Bailey to state his position as to whether he would resign as governor of Arkansas in the event he is elected to the United States senate seat left vacant by the death of Joseph T. Robinson, has been completed.

The petition was circulated by John P. Vesey, Hempstead county representative, Phil Dulin, Jr., and others.

The petition follows:
"Honorable Carl E. Bailey
"Governor of Arkansas
"Little Rock, Arkansas
"Dear Governor:

"It is being rumored that in the event of your election to the office of United States senator, you will not resign your office of governor until the expiration of your present term as governor."

"In fairness to the voters of Arkansas and to yourself, this rumor should be answered by you. We are, therefore, asking you what are your intentions."

WASHINGTON.—(P)—Representative John L. McClellan of Maryland, Ark., said Saturday that if Governor Carl E. Bailey would refuse to accept the nomination of the Arkansas Democratic State Committee for the U. S. senate seat, "party harmony in Arkansas would be restored and that a primary election can yet be called and held in approved democratic fashion."

McClellan said he could not, at the present time answer the "many appeals that are being made to me by true democrats from all sections of the state urging me to become a candidate for the senate seat."

Do you intend to resign as governor of Arkansas, in the event you are elected United States senator?

"And, if you do intend to resign, when will you resign?"

"Because of the fact that this letter is signed by hundreds, make it impractical to send this letter through the mails. We are, therefore, addressing you this letter through the press. However, we urgently request an answer to the two questions above."

The signatures appear on page two of today's Star.

To Send Delegates

LITTLE ROCK.—(P)—Democrats in special session at DeWitt and Sheridan voted Friday to send representatives to the proposed state convention of party members in Little Rock August 9 to make a nomination for the United States senate.

The Arkansas county committee meeting in DeWitt named a subcommittee to appoint a delegation to the convention, proposed by the Saline county committee when it repudiated the state democratic committee's nomination of Governor Carl E. Bailey in rejecting a petition for a primary.

The Grant county committee adopted a resolution at a meeting in Al Moehman, Stuttgart attorney, and George Pike and J. M. Henderson, both DeWitt attorneys, led the fight for the resolution. Owen Young, Stuttgart lawyer, and Dr. H. V. Glenn led the

Chairman Lee Williams of the Grant committee said more than 100 party members attended the mass assembly at the courthouse.

Voting 18 to 2 to send delegates to the August 9 convention, the Arkansas county group urged other democrats of the county to attend.

On motion of W. M. Freeman, DeWitt farmer, the committee voted to send to John L. McClellan, congressman from the district embracing Arkansas county, a telegram asking consent for use of his name as a candidate to oppose Governor Bailey. McClellan is among those mentioned recently as a possible independent candidate.

The Family Doctor

By DR. MORRIS FISHBEIN
Editor, Journal of the American Medical Association, and of Hygiene, the Health Magazine.

Simple Additions to Diet Will Cure or Prevent Many Cases of Pellagra

In this, the fourth of a series of 11 articles on vitamins and deficiency diseases, Dr. Morris Fishbein discusses the prevention and treatment of pellagra.

(No. 280)

Goldberger and his associates, who investigated the prevention and treatment of pellagra, claim that they cured 47 cases by a daily dose of dried yeast, also that other people were cured by being given a daily allowance of fresh lean beef.

In institutions, asylums and homes where the diet is under a centralized control, the prevention of pellagra is not difficult. Here a few simple additions to the diet seem to solve the problem.

Where funds are not available for even these simple additions to the diet, it is customary to add dried yeast as a regular part of the diet, as it is believed that an allowance of one-half ounce of a person each day will prevent pellagra.

Most people know that the diet in the southern portions of the United States is restricted, especially during the late winter and early spring. It is not enough to suggest that these diets ought to be improved or varied greatly.

Unless the necessary funds are available and unless specific instructions are given as to just how the diet is to be modified, little is likely to be accomplished.

In some portions of this area, it has been customary to encourage the family to get a cow and to drink plenty of milk. In other places, the situation seems to have been solved by the setting up of suitable meat markets and with arrangements for the purchase of meats by those who require them.

Most leaders in the field of public health prefer to encourage the use of simple additional substances such as yeast as a more certain method of overcoming the incidence of pellagra.

It has been found that cases of pellagra frequently occur after people have suffered with hookworm, amebic dysentery, tuberculosis or late syphilis. All of these diseases tend to multiply and to thrive where people are poor, where hygiene is bad and where sanitation is absent.

In addition to the control of the diet, some patients may be so severely sick that it is necessary to put them to bed and to feed them by the use of a tube. In these cases doctors sometimes administer liver extracts through the tube, since the liver is not only nutritious but helps to overcome the anemia and provide additional vitamins.

Since the skin is sensitive, it is necessary to prevent bed sores and secondary infections. Because of the inflammation in the mouth, it is necessary to keep the mouth clean and to provide suitable washes and lotions to control the irritation.

If chemical studies show that the gastric juice contains an insufficient amount of hydrochloric acid, the doctor is likely to recommend additional hydrochloric acid for such patients.

Pellagra is primarily a disease of the poor rather than of the wealthy. Sometimes when those of greater income are affected, physicians advise that they change their locale and improve their nutrition.

Teach Boys to Shoulder Duty Tasks

"Mack, I'm not going to tell you about the grass again. It has to be cut every week, and you know it."

"I'm going to cut it, mother, but you know I couldn't do it yesterday on account of the picnic, and the day before I had to go to the dentist."

"That's true, son, but it was due to be mowed on Saturday. Now it's Thursday, and the Thorps are coming to dinner. The grass is long enough, almost to hale for hay, and what will you think?"

"You pay too much attention to what people think, don't you, Mom? You always tell me to make up my mind and go ahead and not always be bothering about what people think, now don't you?"

"Oh, Mack, there you go, turning it all on me when you're in wrong. You know what I mean. Suppose we kept a shiffless place like the Greens. You'd hate it. Anyway, it isn't right for you to expect daddy and me to do everything."

"Suppose he said he couldn't go to work because there was a picnic or he had to go to the dentist's, or I couldn't get meals and make beds because I had to go shopping and have my hair waved. We have to crowd the extra things in somehow, and you'll have to learn it too."

"Didn't I try to cut the grass Monday night? Now didn't I? And you made me come in."

"The Smiths had just got their sick baby to sleep. It was almost dark anyway. You could have gotten up

early on Monday or Tuesday either. But the thing to do, Mack, is to get it done on one day each week and be regular. I don't ask you to do much around here, do I?"

"No, you don't, but dad expects me to wash the car and polish it. And doesn't he yell, though, if I ask Pete to help."

"Now see here, Mack. This is enough. You can cook up more excuses than anyone I know. You cut Mrs. Smith's grass regularly last year and kept her lawn mower in good shape."

"But she was paying me."

The Big Incentive

"So that's it, if I paid you, would you keep an eye on things better? Every Saturday? Regular?"

"Oh, mom, would you? You bet I would."

Mack's mother looked at her son steadily for a moment. She was already giving him spending money. And the boy had almost every luxury he desired. Couldn't he see that he owed some small duties to his parents, to the house, himself?

"I think," she said slowly, "that you are failing to grasp a big idea. Living means work, and when you measure it in dollars altogether, you cease to be useful. How would you like to stop school altogether like Cousin John and go to work in the store? They would pay you there?"

"Oh, I'll cut the grass, mother. Don't go preachy. I'll do it for nothing."

"Nothing!" Mack's mother turned away and wept.

HOLLYWOOD

Inventing a Way Into the Movies—Another Phase in the Cinema Siege

HOLLYWOOD—Actors and chorus girls are not the only people thronging to crash the gates of talkies. Studios also are under the constant siege of inventors.

Most of these having something with which they expect to revolutionize the industry. Right now there's a great boom in schemes for three-dimensional projection. And scarcely a day passes but somebody is around trying to peddle a new idea in television.

Usually they have no samples to show, but merely ask the advance of a few thousand dollars for the development of their inspirations.

Some very remarkable contraptions are offered the movie companies. One fellow designed a machine which he declared would save the studios a lot of money by testing, in advance, the potential glamour of young actresses.

After various electrodes were attached to an as-inventor, she would be given the script of a heavy love scene to read aloud.

Then, by watching the dials registering heart action, blood pressure, and temperature, a casting director could

tell at a glance whether she could play an emotional part with sincerity. Very simple.

Robot Yes-Man

Whim of the weather cost the studios millions annually, and fait-makers (and uni-makers) from all over the world have thoughtfully offered their services in controlling the elements. Most of 'em want to go up in airplanes and sprinkle a mysterious powder guaranteed to dissolve clouds.

A team of sky-writers has declared its ability to create any desired cloud effect, from fluffy cumulus to the lowering thunderstorm variety.

One sardonic gent in the east mailed in specifications for a machine promised to be of invaluable aid to movie executives. It was a talking robot. To any remark addressed to it, it replied, "Yes, sir."

By no means are all the inventions offered Hollywood silly or impractical. Hundreds of reputable specialists, many of them employed by studios, are working independently on chemical formulae for processing film, new ideas in lighting, color, problems, and refinements for cameras and sound recording.

Some Win, Some Lose

Kolb and other technical executives of the studios frequently have to break

the hearts of hopeful inventors by telling them that their ideas long ago have been tried out or patented.

One man came to John Nickolaus, film laboratory chief at Metro, with a color process on which he had labored independently for five years. He had something, too; there was no doubt of it. Trouble was that the idea had been patented for years.

Minor refinements and conveniences always are welcomed by the movie-makers, but practically all of these are developed by people within the industry.

Thus, the most acclaimed gadget of the year is a microphone inside a camera which permits a director to give orders to his cast while watching rehearsals through the finder.

It's a simple device and an obvious idea, yet the man who finally thought of it is cleaning up by selling his invention throughout Hollywood.

And speaking of gadgets, Dancing Director Dave Gould says he's thinking seriously about a machine for teaching tap steps.

It's possible, he believes, to produce all the movements of the basic steps

A Book a Day

By Bruce Catto

"The Life of Riley" Brilliant in Spain.

Although Harvey Ferguson has a wealth of excellent material, knows his subject matter well, and has, in the past, proved his ability to handle words, characters and situations, he fails to make the most of his opportunity in his newest novel, "The Life of Riley" (Alfred A. Knopf, \$2).

Ferguson has turned out some of the best novels of the present day in southwestern United States. He has his own roots in that section, knows it well, and quite evidently loves it. The locale of his newest book is in that same territory, yet there is a nebulous mechanically. Thus a student could strap her feet to the machine and be forcibly guided through the routines. Sounds screwy? Well, you don't know Mr. Wood!

have ever "The Life of Riley" that seem to distort Ferguson's picture. Perhaps it is because the author has tried hard to show more of his chief character's soul and psychology, making the action secondary, without quite measuring up to the task. At any rate, the book is decidedly spotty, brilliant in a few passages, rather dull and mediocre in a few others, and just average in the largest part.

Riley, the roistering son of a frontier backkeeper, could have been a much stronger character than Ferguson paints him. But, it is only fair to say, Riley is an interesting character, and the story of his life, as he lives it against the backdrop of war in Europe, in a boom town, and in strange boudoirs, is lusty reading.

Many of the other characters in this novel are better pictured than is Riley, and the book derives some of the strength it admittedly has from these minor figures.—W. V.

To Anxious Mothers

You don't quite understand them these young changelings, with their theories, And agonies, And cool assumptions; words and ways, Open to anybody's gaze. Frank to the point of shocking, still seeking a thrill In love, in breaking laws, And, then in the next breath Looking for new thrills, wondering if death?— Mothers, don't be distressed, we plead, Just love them—that is all they need. But, oh they need that so much more Than young folks ever did before.

Noted Aerialist Shoots Ex-Wife

Circus Performer Turns
Gun On Self to Com-
mit Suicide

LONG BEACH, Calif., (AP)—Mrs. Annie Bruce reported to police Friday that Alfredo Codona, international known circus aerialist, shot his divorced wife, Vera, and then killed himself Friday.

Mrs. Bruce—Mrs. Codona's mother—said the attempt at murder and suicide occurred in the office of her daughter's attorney and that she was the only witness.

Police said Mrs. Bruce told them Codona fired four shots at the woman who divorced him only a few weeks ago. They found one bullet entered her head and three lodged in her abdomen.

She was taken to Seaside hospital where attendants said her condition is critical.

Mrs. Codona and her mother were in the office of Attorney James E. Pawson in the Security Bank building. Pawson told police Codona came in and asked to talk with Mrs. Codona.

He asked the attorney and Mrs. Bruce to leave the room, but Mrs. Bruce remained. Mrs. Bruce said as Codona lighted a cigarette for his one-time trapeze performer-wife, he said: "This is the last thing I'll be able to do for you."

Then, Mrs. Bruce said, he pulled the gun from his coat pocket and fired five shots in rapid succession.

opposition forces. Both sides charged if their cause were lost it would split the party.

L. R. Dearing, DeWitt T. W. Lowery, DeWitt, and Fred Mahle, Stuttgart, were named as a committee to select a delegation of not less than 12 to the state convention.

Neither of the Grant county sessions endorsed a candidate for the senate seat but the committee resolution expressed willingness to endorse "any good democrat" nominated at the convention.

The resolution also "guaranteed" any voter voting for an independent in a special election for senator would not disqualify himself by his actions from voting in the regular democratic primary of 1938.

Another resolution adopted by the committee complimented John G. Moore, Morrilton, Robert A. Frather, Vimy Ridge, and Mrs. Mary G. Grayson, Arkadelphia, for their stand before the state committee in opposing nomination of Bailey.

Meeting Tuesday
In Chicot county, Chairman J. A. Bennett of Dermott called a meeting of the county democratic committee at Lake Village next Tuesday to decide whether it should send delegates to the state meeting.

Congressman McClellan has indicated he would make a statement from Washington this week and while no word was forthcoming from C. Albert Walls, Lonoke attorney, and Mrs. Ewidia Gertrude Robinson, widow of the late senator whose death brought about the muddled political situation. Both Walls and Mrs. Robinson have been mentioned as possible candidates. J. Rosser Venable, World war veteran, and R. F. Waters, Danville, have announced as independent candidates.

Best-Dressed Woman

BY HELEN WELSHIMER

COPYRIGHT, 1937, NEA SERVICE, INC.

I'm going out in the morning and most of the guests will come later in the day. Come out after the night performance. We'll be swimming late in the pool and having supper around its edge.

When he had accepted and promised to tell Millicent he'd drive her out, he said: "That makes us even."

"Even?" "Yes, Judy Bole, for going back on the invitation in Pittsburgh a dozen years ago."

"But what invitation?" "Umm-hummmmm! I gave you mother a message to give you one day soon after I'd taken you home that night on that mining trip and you never replied. I supposed you had changed your mind."

"I never got the message," Judith said quietly, knowledge coming years too late. "It was my stepmother and she did things like that. I'm sorry!"

"So am I!" For a moment they were back once more in the city of smoky hills, their visions yet unfound in the gray skies that covered the great mills and the three dark rivers. For a moment anything was possible. Then, they were adults again.

"Did you know me at once?" Judith asked. "Not until someone called you 'Judith'."

"Why didn't you remind me?" she asked, then answered her own question in the rich, throaty tones that were always honest. "I know—you doubted me as I doubted you. You thought I had turned you down and when I didn't seem to recognize you, you wondered if I was keeping Judith Bole's boat house a secret. And I thought you didn't want to know me any more."

When she started to lunch Judith had a warm glow in her heart. A lost friend had returned. A lantern had swung down to light the path. Only Phil mattered but she was glad she had found Bruce.

SATURDAY afternoon, about 5 o'clock, Judith heard the clatter of Phil's car sounding down the valley. There were fires in all the rooms for rain had come again and the night would be chilly. The great, spreading lodge, which was almost all living room with a den tacked on one side and bedrooms scattered above on the second floor, was bright with lamplight. The brass chandeliers, the deep chairs and divans waited.

Judith was wearing green tweeds with a rust sweater and matching oxford. She went to the terrace to greet her husband and the two airdales followed her.

"Hello, Judy dear," Marta's fluted tones called from the depth of the car. "It's sweet of you to let me come."

"You're an angel to come," Judy lied with perfect grace. "Hello, darling," Phil flung out carelessly. "This child was relying on trains and you know how they run up here."

"Oh, my dear, you should have called one of us," Judith reproved, never disclosing by so much as a flicker of an eyebrow that she knew that was just what Marta had done. "It was thoughtless of me not to suggest getting you this morning."

"I had to give up my car. Dick was sort of forgetful about alimony," Marta explained with the air of a martyr who does not censure but accepts life with its reverses.

"How lovely you look," Judith went on, talking against time. More cars were coming now. Guests were welcomed, retired to their rooms to prepare for dinner. Laughter and gay voices were drifting down the halls. Judith did not change except to add a small strand of pearls to the turtle neck of her sweater as a dinner gesture. They had been a gift from Phil a few months before. When Phil went into his den she followed, determined to make no mention of Marta. Love, faith, devotion were intangible substances that could not be touched, or they would move away. Quick-silver stuff. You couldn't pick them up. You knew, though, they were there so long as you did not touch them with words. Here in the out of doors she sensed the old truth again.

"A good day, Phil?" she asked. He turned slowly and when she saw the haggard look on his face, read the suffering in the blue eyes, her heart turned over and didn't move again. So this was the way women felt when their husbands came to say goodbye.

It was very still in the den, just the snap of a twig as the blaze found it, and the showering rain-drops on the window.

"Judy," he began and paused. "Judy..."

and issued to the teachers as he collected \$200 for meach one. These sums he paid over to Ferrando, in return for the tickets.

When the day of departure arrived, a carefree, happy group assembled at the appointed place. Francis Ferrando, however, was not among them. The group waited an hour—two hours—and still no Ferrando. Then, after a little investigation, Prof. Burdelle learned that Ferrando had checked out of his hotel the night before, leaving no address.

There was no tour!... And for all that Kingdon Burdelle did, and more to the contrary, he alone was responsible for the situation. Upon him rested

the entire obligation. He had accepted the Trust-Contract-Tickets as receipts for the \$6000. And, of his savings, he was obligated to repay that amount to his associates.

Prof. Burdelle to two free trips. Kingston Burdelle gladly accepted the offer. An itinerary was prepared, and all details settled. The discussed it with his teachers, and within a week had successfully enrolled his quota of thirty enthusiastic tutors.

Ferrando arranged it so that he was not to appear in the matter, leaving to Prof. Burdelle all the credit of managing the tour. He did, however, furnish Travel-Contract-Tickets which Prof. Burdelle signed as "Conductor."

Police Attempting to Identify Woman

Attractive Young Woman
at Hot Springs Is Being Held

HOT SPRINGS, Ark., (AP)—Police Friday night turned to Santa Fe, N. M., officers in their attempts to trace the identity of an attractive, young woman whom hospital authorities believe may be an amnesia victim.

While the woman, about 23, had left the hospital and is being cared for by the wife of City Policeman Jeff Bradley. She said Friday night she was sleeping for the first time since she was found wandering aimlessly at a bus terminal Wednesday.

"Yes, Judy Bole, for going back on the invitation in Pittsburgh a dozen years ago."

BATTLE THEATERS

Saenger-Rinto

A real gala Hollywood premiere, complete with pressing throngs, searchlights, radio announcer and celebrities is one of the thrilling highlights of "A Star is Born," the technicolor production co-starring Janet Gaynor and Fredric March, which begins a three-

day engagement at the Saenger Theater Sunday, and an account of pictures length, only twice daily.

William A. Wellman directed this glamorous story of Hollywood's "inside," which casts Janet as a little country girl who came to Hollywood in search of fame, faced the crushing odds of 100,000 to one and made good.

Such world-famous Hollywood landmarks as the Trocadero, Grauman's Chinese Theater, the Brown Derby and the Biltmore Bowl as it looks during the famous banquet of the Academy of Motion Picture Arts and Sciences, are shown in natural color for the first time.

Adolphe Menjou, May Robson, Andy Devine and Lionel Stander are prominently featured in this first up-to-the-minute story to be filmed in technicolor, while others playing important roles are Owen Moore, Peggy Wood, Elizabeth Jennis, Edgar Kennedy, J. C. Nugent and Guinn Williams.

Mighty drama of a primeval world; of aivism rampant in almost unknown spots of the globe; thundering adventure, strange rites of a savage people in the jungles—these are the background for an everlasting story of devotion, love and romance, in "Trader Horn," showing Sunday, Monday and Tuesday at the Rialto.

To describe "Trader Horn" staggers the imagination. Harry Carey gives a magnificent performance in the role of Trader Horn, the guardian of Peru, his friend's son, and of the golden haired Nina T. "White Goddess" in a temple of a savage tribe. Duncan Renaldo plays the role of Peru convincingly and Edwina Booth is beautiful as well as dramatic in the heroine's role.

The sermon Sunday night is on "Facing Life Squarely." Men and women can run away from neither God nor themselves, altho they often try to do both. There is an inward judge, an ultimate still small voice of conscience that is never quite perverted, and which must be heard and faced. If a man or a woman becomes morally right they must at least face this inward judge within themselves and make peace with their own consciences. Only then can they go on to make peace with God, Zacheus

meeting.

Additional lighting has been provided this week for the Lawn Chapel, and the Christian Endeavor meeting and the evening worship service will again be held out in the open air. Come and worship with us Sunday night in cool comfort.

did just that. He was brave enough to undergo a thorough moral revolution and he had the courage to confess his faults and make restitution. Salvation has come to the house of any man or woman who is big enough and brave enough to do that. There is no virtue in dodging the issues of life. Attempt to Halt Felon's Removal

Petition Alleges Transfer of Traxler Would Be Illegal

McALESTER, Okla.—(P)—An application for a writ of habeas corpus was filed in district court here to prevent return of Roy (Pete) Traxler to Eastham, Texas, prison farm where he was serving a 99-year armed robbery term when he escaped early this month.
The petition alleged the extradition would be illegal as a required notice had not been served on Traxler. It added he was in a serious condition in McAlester penitentiary hospital from gunshot wounds received when he was captured and his comrade, Fred Tindol, was killed by two hostages July 21.
District Judge R. W. Higgins will hear the application Saturday afternoon. It was filed by Nell Traxler, the prisoner's wife.
